Special Aac Existing audiovisual

Existing audiovisual cataloging systems contain mostly descriptive information, publishers' or producers' summaries, and order information. This paper discusses the addition of measurable learning objectives to this standard information, thereby enabling the potential user to determine what can be learned from a particular audiovisual unit. Cataloging audiovisual materials: a new dimension. For over two decades, Cataloging of Audiovisual Materials and Other Special Materials has served as the place to go for catalogers of nonprint materials around the world. Individual chapters deal with cartographic materials, sound recordings, videorecordings, graphic materials, three-dimensional artifacts and
