Catia V5 Training Manual
Advanced Building on the
Fundamentals course, CATIA V5
Advanced training takes you to the
next level. As well as covering the
more advanced capabilities of
CATIA such as PowerCopy, this
course continues the development
of 'best practice'
methodologies. CATIA V5 Advanced

| Gonzalo Anzaldo ... CATIA

Advanced Training course will teach
you how to start a complex design
project from its specifications (top
down approach) and complete it by
reusing existing data in CATIA.

CATIA Advanced Training will focus
on advanced skills and concepts
that enable you to create and
analyze complex parts and
assemblies using CATIA. CATIA

Advanced Training Objectives:

Create a complex model in CATIA;

Create and manage a structured

model in CATIA; Design parts in the
context of an assembly in CATIA

The Online Resource

Intermediate Surfacing left off and teaches users how to create and analyze complex surfaces using the CATIA V5 Generative Shape Design workbench. (For some licenses, many of these commands will be found in the Wireframe and Surfacing Design workbench instead.) Advanced Surfacing Training Courses for CATIA V5 - i GET IT Learn advanced curve and surface topics in CATIA V5 including swept surfaces, adaptive sweep, knowledge templates, duplication tools, and more. CATIA V5 Advanced Surface Design Course Outline This is an introductory course for all new users of CATIA V5. Gain understanding of the CATIA V5 interface and how to use CATIA V5 to create solid models of parts, assemblies and drawings.

Understand how to manage parts in the context of an assembly. This is a hands-on course where students produce simple parts drawings and assemblies. CATIA V5 Training Courses | Inceptra The goal of advanced CATIA training course is to teach participants how to create complex 3D models in CATIA, during 40 hours. During this training course, you have an opportunity to learn how to modificate and analyze complex 3D models. You will learn how to use tools for creating technical documentation and how to model complex surfaces. Program (40 hours): Part design (advanced) Assembly (advanced) Sheet metal design (advanced) Drafting (advanced) Surface design (advanced) CATIA Advanced
