guide on how to generate a useful report is a useful tool for those clinicians already reporting CT colonography who wish to critically examine their own reporting techniques. CT Colonography: A Guide for Clinical Practice CT Colonography is a test which uses a CT scanner to produce images of the large bowel (colon and rectum). During the test, we inflate the bowel with gas through a thin flexible tube we place in your back passage. We take scans with you lying on your back, and then on your front. Doctors can then look at the scans for polyps and signs of cancer. CT Colonography (Gastrografin Preparation) Your doctor has arranged for you to have a CT Colonography examination, which is a CT scan of the large
