Because this site is dedicated to free books, there's
none of the hassle you get with filtering out paid-for
content on Amazon or Google Play Books. We also love
the fact that all the site's genres are presented on the
homepage, so you don't have to waste time trawling
through menus. Unlike the bigger stores, Free-
Ebooks.net also lets you sort results by publication
date, popularity, or rating, helping you avoid the
weaker titles that will inevitably find their way onto
open publishing platforms (though a book has to be
really quite poor to receive less than four stars).
