Processes International criminal law is a body of public international law designed to prohibit certain categories of conduct commonly viewed as serious atrocities and to make perpetrators of such conduct criminally accountable for their perpetration. The core crimes under international law are genocide, war crimes, crimes against humanity, and the crime of aggression. This article also discusses crimes against international law, which may not be part of the body of international criminal law.

"Classical" International criminal law - Wikipedia International Criminal Law provides a set of teaching materials furnishing students with a grounding in the transnational issues likely to arise in federal criminal cases, and also

in the law produced as a consequence of international efforts to impose criminal responsibility on the perpetrators of human rights atrocities. Download [PDF]
