Marketing document Please consult factor for more information Manufacturer reserves the right to modify this information without notice August 0.1 1.0 10.0 0.11 .0 10.0 ... Model JP3 - Fire and Industrial Pump Controllers Valves of Jockey Pump: An isolation valve shall be installed on the suction side of the jockey pump to isolate the pump for repair. A check valve and isolation valve shall be installed in the discharge pipe of the jockey pump. Valves and components for the jockey pump shall not be required to be listed. Jockey Pump Requirements & Sizing - NFPA 20 - Fire ... 1) The jockey pump stop point should equal the pump churn pressure plus the minimum static supply pressure. 2) The jockey pump start point should be at least 10 psi

(0.68 bar) less than the jockey pump stop point. 3) The fire pump start point should be 5 psi (0.34 bar) less than the jockey pump start point. Pressure Maintenance (Jockey) Pumps | Fire Protection ... The Jockey pump is fitted with a pressure switch, which will cut in a cut off time. The jockey pump won't start unless there is a leak and the pressure in the pipe line decrease. While the pressure decreases, the cut in pressure is reached and the motor starts. When the required pressure reaches the cut off pressure, then the motor stops. What is a Jockey Pump? (with pictures) - wiseGEEK The purpose of the jockey pump is to keep the water pressure in the pipes within a specific range when there's not a fire, so that the

sprinklers won't go off randomly. Since pipes leak, over time, the water pressure inside them automatically goes down. The jockey pump senses this, and then fills them back up to normal pressure. What Are Jockey Pumps and How Do They Work? - Flow Tech News The Jockey Pump Controller is equipped with a Pressure Transducer. The controller is provided with a ¼" NPT female system pressure connection located on the bottom, external side of the enclosure. The connection should be installed as per NFPA, pamphlet No. 20. NOTE: Water lines to the pressure transducer must be free from dirt and contamination. EATON XTJP / XTJY Jockey Pump Controllers The switch is used to stop the main pump after a manual or auto- matic start

(position “0”) and to select the operating mode. In “AUT” position the main pump is in automatic mode and in “TEST” position in manual mode to start the main pump for a test run or during commissioning. Fire CONTROLLER SS EN12845 SS 883001 structions INSTA 900 When you see this symbol on your pump or in this manual, look for one of the following signal words and be alert to the potential for personal injury! indicates a hazard which, if not avoided, will result in death or serious injury. indicates a hazard which, if not avoided, Aurora PVM(X) Series Vertical Multistage Pumps Manual View & download of more than 3244 Grundfos PDF user manuals, service manuals, operating guides.
