FLAPS IN FACIAL RECONSTRUCTION Three types of local flaps will be described: rotation, advancement, and transposition flaps. All of these flaps are confined to head and neck facial reconstruction. The advantages of the local flaps are their ability to provide vascularized color- and texture-matched skin for reconstruction. The majority of the repairs can be done as a single stage. Local Flaps | Plastic Surgery

Key Choice of local flap Determining the type of local flap to use depends on the location of the defect and the flap donor site. When planning placement and design of a local flap there are important tenets of reconstruction to bear in mind. 1. Incisions and closures should be along relaxed skin tension lines
