... Scales of measurement in
research and statistics are the
different ways in which variables
are defined and grouped into
different categories. Sometimes
called the level of measurement, it
describes the nature of the values
assigned to the variables in a data
set. 7 Types of Data Measurement
Scales in Research There are three
main types of research design: Data
collection, measurement, and
analysis. The type of research
problem an organization is facing
will determine the research design
and not vice-versa. The design
phase of a study determines which
tools to use and how they are
used. Research Design: Definition,
