FREE Shipping on your first order shipped by Amazon. MERCURY Genuine Trim Switch - 8M0042300. Amazon.com: mercury outboard parts for tilt and trim Re: Trim motor lost power, I hear the click when pressing the trim buttons though A lot of engines pull the high amp positive off of starter and then feed it through a circuit breaker. If the circuit breaker pops you can hear clicking but not get any power to trim motor. Trim motor lost power, I hear the click when pressing the ... A trim motor can change the angle of your outboard engine so that you can put it in an optimal position. Trim motors run with electro-hydraulic power. An electric pump moves fluid when needed, and its this movement that changes the thrust angle of the outboard. Trim: You use the trim switch to tilt the engine slightly while its running in the water. If you change the trim of a boat in certain situations, you can level it out.
