Women - Nancy Goldstein

... Gender disparities in the HIV epidemic begin to emerge during adolescence. In the first decade of life, few gender disparities in HIV infections are observed among children. In 2019, there were 76,000 new infections among boys under the age 9, and 73,000 among girls. Gender and HIV/AIDS - UNICEF DATA Gender inequalities, including gender-based and intimate partner violence, exacerbate women and girls' physiological vulnerability to HIV and block their access to HIV services. 3 HIV is not only driven by gender inequality, but it also entrenches gender inequality, leaving women more vulnerable to its impact. 4 Gender inequality and HIV | Avert The Gender Politics of

The Gender Politics of HIV/AIDS in Women - Nancy Goldstein ... The speakers will link the affective life of HIV

stigma to its political, personal, and activist life. Doing so, they ask: In what ways is this stigma gendered and raced? How have researchers and activists accounted for the gendered, affective, and political life of HIV? HIV, Stigma and Resistance Gender has long been recognized as being key to understanding and addressing HIV and AIDS. Gender roles and relations that structure and legitimate women's subordination and simultaneously foster models of masculinity that justify and reproduce men's dominance over women exacerbate the spread and impact of the epidemic. Gender and AIDS: time to act Much of what has played out in national and global responses to the HIV/AIDS pandemic is shaped by political

Yet, little analysis has been done to dissect political dynamics and motivations.
